PROFILE

An UG student specializing in Full-Stack Development, Artificial Intelligence, and Data Science. Concurrent dual-degree candidate (B.Tech CSE & BS Data Science) passionate about building scalable web applications, deploying machine learning models, and leveraging AI-assisted workflows to solve complex, real-world technical challenges.

SKILLS

- **Languages:** Python, Java, C++, JavaScript, SQL, HTML/CSS, MIPS Assembly(basic)
- **Full-Stack & Tools:** Flask, Vue.js, Tailwind CSS, RESTful APIs, Redis, Celery, Git/GitHub, Linux
- **AI & Data Science:** Machine Learning, Deep Learning, Natural Language Processing (NLP), Predictive Modelling, Data Analysis & Visualization
- **Methodologies & AI Workflows:** Prompt Engineering, AI-Assisted Development & Debugging, Rapid Prototyping (MVP), Generative AI Integration (Claude, ChatGPT)

EDUCATION

- Bennett University | B.Tech in CSE (Data Science) | CGPA: 8.12 | 2024–2028
- IIT Madras | BS in Data Science & Applications | CGPA: 7.27 | 2023-2027
- Birla School Pilani, Rajasthan | Class XII (CBSE) | 87.78% | 2021-2023

PROJECTS

- **AI & ML Applications** Developed an LSTM-based stock market prediction system and an NLP-powered comment classification model.
- **Full-Stack Management Systems** : Built vehicle parking and hospital management applications with RBAC, database integration, and responsive web interfaces.
- **Web & API Applications** : Chrome productivity extension and AI-powered career guidance platform leveraging modern web technologies and APIs.

ACHIEVEMENTS & CERTIFICATIONS

- Team Lead – Multiple competitive CODM tournament victories.
- 2nd Place – Inter-School Chess Competition, Birla School Pilani.
- IIT Madras BS in Data Science & Applications – Foundation Level & Diploma in Programming completed.
- Technical certifications from IIT Madras, Google, workshops, hackathons, and university coursework.
